The newsletter of the National Network of Libraries of Medicine, New England Region, Mar.-Apr. 1996, vol. 5, no. 6

Spring and the Contract At Last!

By John Stey, Associate Director

At last, we are pleased to announce that the University of Connecticut Health Center Library has been awarded the NN/LM™ contract for the next five years. The new contract for \$4,140,315. for the years 1996-2001 begins May 1, 1996. We would like to thank everyone in the region for their support in the past and look forward to serving the New England region in the future.

Another winter to remember, or maybe try to forget. Being down two professional staff members made it even more difficult to get out into the region. However, we have finally filled the Network Coordinator position. Join us in welcoming Edward Donnald from the National Agriculture Library in Washington, DC. Ed spent a summer working for the Health Sciences Library at the University of Maryland at Baltimore before his time at NAL. He will coordinate DOCLINE® activities, produce the newsletter and manage the NN/LM NER Home Page on the WWW. He has family in the Hartford area and is looking forward to raising his family in New England. Ed can be contacted at the NN/LM NER office at 1-800-338-7657 press "1" or 860-679-4793 or e-mail at donnald@nso.uchc.edu

Yes, you are all asked to update your Rolodex. The NN/LM NER telephone number is being changed to 860-679-4500. Half of Connecticut will still be 203 while the other half is 860. The change will be

permanent by October 1, 1996 but we can already be reached at the 860 prefix. NN/LM NER staff can also be reached at the 1-800-338-7657 and press "1".

The Electronic Fund Transfer System (EFTS) is operational and two successful uploads have been accomplished. We now have 190 participants and continue to encourage network members to establish a deposit account by sending a check to the University of Connecticut Health Center Library. Be sure to include EFTS on the check or in the address and send it to UCHC, 263 Farmington Ave., Farmington, CT 06030-5370. We no longer accept \$8.00 coupons but will continue to accept \$10.00 coupons until June 30, 1995 to open an account. For more information about EFTS and/or if you wish to be invoiced, please contact our office at 860-679-4500. Remember, only libraries that charge other libraries for ILLs will need to upload data to our server but all network members will benefit if they open an account. All participating libraries will receive a monthly statement of their account. We are happy to answer questions via email or telephone and an advisory committee is being formed to address issues dealing with EFTS.

We hope to see many of you at MLA in Kansas City and, if not before, join us for the NAHSL Annual Meeting in Greenwich in October.

Internet Access to New England Library Catalogs

By Dorothy Kalahan, ILL Department, University of Connecticut Health Center

Many New England libraries have catalogs that are accessible through the Internet. Most require telnet to reach their catalogs. They include public libraries, community colleges, state universities, private colleges, and medical schools. The following is a listing of some of these libraries, arranged by state. This listing is most likely incomplete and a little experimenting will find libraries I have missed.

Bibliomation and Connect in Connecticut, and C/W Mars in Massachusetts, are consortia with online catalogs through the CARL Corporation.

When a library requests a login, usually the word "library" will work, or specific instructions will show on the login screen.

Grateful Med® on the Internet

The National Library of Medicine debuted its Internet Grateful Med at the Friends of the National Library of Medicine *Enabling the Vision* conference in April. Now you can search Grateful Med on the World Wide Web. It incorporates "auto" checking against MeSH, "autoexplode" of explodable terms and the Analyze Search function offers related terms and mappings to clarify them. Just point your favorite browser to:

<http://igm.nlm.nih.gov>

For more information give the NN/LM a call at 860-679-4500

ADDRESS CHANGE?

Has your institutional or library address or name changed? Please notify the NN/LM NER staff at 1-800-338-7657 of any such changes or send an e-mail message to Edward Donnald at donnald@nso.uchc.edu. This helps us keep DOCUSER®, the network database, and directory listings up-to-date and accurate. Thanks!

DOCLINE ETIQUETTE

By Patricia L. Wales, Director of Library Services, Hospital of Saint Raphael, New Haven, CT

Maintenance

Keep your serials holdings current and accurate. Update your holdings at least twice a year-preferably four times a year according to the UCMP newsletter schedule if you subscribe to UCMP Quarterly. If not, contact the Medical Library Center for a printout of your holdings. (However, please note that SERHOLD® is updated only once a year after receiving the Region 1 and 8 update submitted by the Medical Library Center.) Of course, this may all change after UCMP Online is up and running!

Update your DOCLINE cells annually or biannually. The list of participants changes frequently and it would benefit you to delete any library with which you do little ILL activity and include those with whom you interact frequently.

Basic Health Sciences Libraries

If you are a member of BHSL, review the membership list by level to decide where to place other libraries in your DOCLINE cells. Failure to do so may strain the congenial relationship now existing and could jeopardize some libraries' continued participation in the relationship. If there is any doubt, call the library and request to speak to the library director or manager.

Note your membership in the comments field on your DOCLINE request. It not only helps another BHSL library filling your request but it makes it easier to tally BHSL statistics at month's end.

Contact your BHSL coordinator in your area/state if you have any questions not answered by the BHSL package you received when you first joined.

Mentoring

Local consortia should be utilized first. If you wish to establish a reciprocal arrangement with another library outside your local consortia/area and which does not participate in BHSL, contact the librarian by phone and discuss it.

If you are new to the game, contact the Network Coordinator at the RML for the DOCLINE printed forms

(or disk) on how to proceed. You might want to contact another librarian you feel comfortable talking with to gain further input as to what is appropriate within your local consortia/area.

Further Considerations

Make your serials holdings as specific as possible. If UCMP Quarterly has listed the supplements separately, do the same. It makes a BIG difference when submitting a DOCLINE request as to where it will "land" in your DOCLINE structure.

Be sure your UCMP directory listing is accurate. If you have any changes such as a new area code, fax number, email address, or library staff members, keeping it up-to date benefits all of us.

Have a question about who is on DOCLINE or trying to find a LIBID for a library out of the region? Consider trying DOCUSER, the NLM database-it's free and very user-friendly.

If you've saved the NN/LM newsletter called *New England Sounding Line*, you will find some helpful hints in the column "Docline Questions".

If your DOCLINE cells are current and accurate, there is no need to prefix your requests. The system is designed to distribute the requests fairly and equally (even though there are days it doesn't seem that way)! Generally speaking, the only reason to direct route a DOCLINE request is a confirmation of a FAX request or the library shows incomplete holdings on UCMP.

MINOR CHANGES TO DOCLINE TABLES

DOCLINE librarians may send minor (up to 10) DOCLINE Cell Revision changes to the NN/LM NER through e-mail. Please send these e-mail messages to Edward R. Donnalld, Network Coordinator at: donnalld@nso.uchc.edu

We can also send you a copy of your routing table on disk. Making revisions will be easier and less time consuming. Call 1-800-338-7657 and press "1" or 860-679-4793 for more information.

Spring Meetings

By John Stey, Associate Director

The Regional Advisory Committee

The Regional Advisory Committee Meeting was held at the Publick House in Sturbridge, MA on April 1, 1996. This final RAC meeting for the current contract period was dedicated to evaluating the NN/LM NER program using the Nominal Group Technique. Ralph Arcari gave an update on the contract proposal and EFTS. John Stey introduced Edward Donnald, the new Network Coordinator, and provided an overview of the goals and objectives of Year 05. Tim Roberts reported on outreach activities at the Boston Computer Society, the NN/LM NER AIDS programs and exhibits attended this quarter.

The RAC for the next contract was discussed with many good suggestions from the current members such as a two-three year term, representation from both NH and VT, a committee structure that would be charged with specific business, and representatives from both rural and urban areas.

Julie J. McGowan and Peter A. Johnson were presented with certificates of appreciation thanking them for their contributions as RAC chairpersons during the last five years.

Marion Levine then led the RAC in Nominal Group Technique to address two statements.

Task Statement #1: Given your past experience serving on the Regional Advisory Committee, how can the NN/LM, NER staff improve content and logistics of RAC meetings and communication in the next five years.

Task Statement #2: As Region 08 librarians and health professionals, how can the RAC and the NN/LM, NER staff work together to promote Grateful Med (GM) and provide Loansome Doc (LD) service?

For a complete list of suggestions generated check out the NNLM-NER listserv, the NN/LM NER Home Page on the WWW or call the office for a print copy.

ILL/Document Delivery

A special ILL/Document Delivery meeting was convened at the Publick House on April 2, 1996 in Sturbridge, MA. The announcement was sent out on the NNLM-NER listserv, the MAHSLIN listserv and emailed to Resource Library Directors, Consortia chairs and announced at meetings attended by NN/LM NER staff. Nearly fifty ILL staff and librarians attended. The agenda for the meeting included EFTS, Speedy Doc (Cathy Moore/Jay Daly/MAHSLIN proposal for electronic document delivery), DOCLINE Etiquette, UCMP Online and the RAC composition.

Ralph Arcari and John Stey gave an EFTS update and answered questions. Speedy Doc, a pilot program in MA for hospital libraries is designed to speed up document delivery to 24-36 hours. It will require a mime-compliant e-mail reader. Concerns raised included cost, workflow, and time required to fax every article. John Stey suggested that the region could resubmit Speedy Doc as a special project to NLM..

A Regional Advisory Committee (RAC) composition handout was available to the group. NN/LM NER proposed there be 20 members (8 permanent; 12 rotating), that they meet annually (face to face) in years 1, 3, and 5, and that they meet (via teleconference) in years 2 and 4. This proposal is still under review. If you have input, please share it with John Stey.

Bob Dempsey gave an update on UCMP Online and described the costs associated with different modules and functions. UCMP Online will be available via an 800# and over the Internet. The paper and fiche copies will still be available in the future. For more information contact Bob Dempsey at 212-427-1630.

NNLM-NER, The New England Region Listserv is up and running at the University of Massachusetts Medical Center thanks to Annanaomi Sams and her staff.

Subscribe to the list by sending an e-mail message to: listserv@library.ummed.edu

Do not put anything in the subject line and in the body (message area) type: `join nnlm-ner firstname lastname`

We will move the listserv to the NN/LM NER office when our hardware arrives. The listserv will be another method of communicating with network members. **Join Today!**
